

Subject: Request for Support to Fund the Certificate Management System

We write to seek your valued support toward the implementation of our newly developed *Certificate Management System* at the Commission. This system is designed to digitize and streamline all certificate application processes related to WASH sector operations.

The system will significantly enhance **transparency**, **speed**, and **accountability** in the issuance of certificates. It will reduce manual delays, improve public access to services, and minimize potential errors or duplications. Importantly, it will also contribute to improved **revenue generation** by tracking and managing payments more efficiently.

To fully deploy and sustain this vital digital infrastructure, we are seeking financial support in the amount of **\$15,000.00 USD**. This will cover backend development, cloud hosting, maintenance, and capacity-building for relevant staff.

We believe your partnership will go a long way in helping us modernize public service delivery in the WASH sector. We look forward to the opportunity to discuss this further at your convenience.

Sincerely,
